

Netflix

Offers unlimited Movies & TV episodes

From the Net to your TV

For \$7.99 a month, watch movies & TV episodes streaming over the Internet to your TV via an Xbox 360, PS3, Wii, Internet connected Blu-ray players & HD TVs, some smart-phones & tablets, and any device that streams from Netflix. You can also watch on your PC.

You may try it for free for 1 month. If you enjoy Netflix, do nothing and your membership will automatically continue for as long as you choose to remain a member. You can also cancel your account before your free trial ends and you won't be charged.

You can watch it online on your PC. You need a computer running Windows and a broadband Internet connection. PC requirements: - Windows XP with Service Pack 2 or 3, Vista, Windows 7, & Internet Explorer 6.0 or higher, Firefox 2 or higher, 1.2 Ghz processor, & 512 MB RAM or more.

Netflix from a PC to a TV

Connect a VGA cable and an audio cable or a HDMI cable from your PC to a TV.

An easy hook up is a PC with a VGA and a 1/8" stereo audio cable.

You must have broadband and best to have an unlimited data plan with your ISP.

The data rate can be from 300MB per hour to 2.3GB per hour so if your ISP has a cap on your downloading you may be charged extra if you exceed your cap limit.

After you sign in to Netflix you can scroll along the offerings. You can click on "Gendres" and get a listing of what to see. Pointing at an offering brings up a popup that describes the show or movie.

Click on the offering and it will load.

Click on Full Screen.

You can pause the movie and come back later or you can click on Back to Browsing and when you want to continue the movie will start where you left off. Charlie Le Ber
